Why Us?

Luxurious Hotels

Blocks of reserved rooms: During peak times, hotel reservations can be hard to get, especially in cities like New York, Washington DC, and Chicago. We have room blocks reserved all over the world so that accommodations may be available even when the cities are "sold out."

The Best Service

At Leo Travel, quality and service go hand-in-hand. We go above and beyond to ensure these two hallmarks are met at every step of your journey. To help achieve these core values, we closely monitor client satisfaction and are consistently seeking new ways to exceed our clients' expectations.

Unique Experience

From first contact, through the duration of your stay, and until you are safely home again, we are with you. You will know your personal travel consultant both by name and by face, as we make it a practice to greet our clients personally and go through the entire trip.

Ovde se nalaze dinamicki ispisani razlozi za odabir agencije dinamicki ucitani iz JSON fajla.

About Me

My name is Lav Bjelogrić - Nikolov, I am 21 years old developer from Belgrade, Serbia. This site is my school project based on AJAX, JSON and JavaScript.

I am highly interested in backend development with C# and PHP. I like problem solving and to think logically. Rather than learning something for the sake of it, I like to understand how and why.
